

Contribution Journal Report for Lab 03

Prepared for Prof. Vishwantha Rao, HCC ITAI 1371 Machine Learning

Prepared by FA26_ML_6171_16347 3_ITAI1371 Group

01-Sep-2026

This report was prepared for Lab 03 (L03) for ITAI 1371 Machine Learning, by the group FA26_ML_6171_16347 3_ITAI1371.

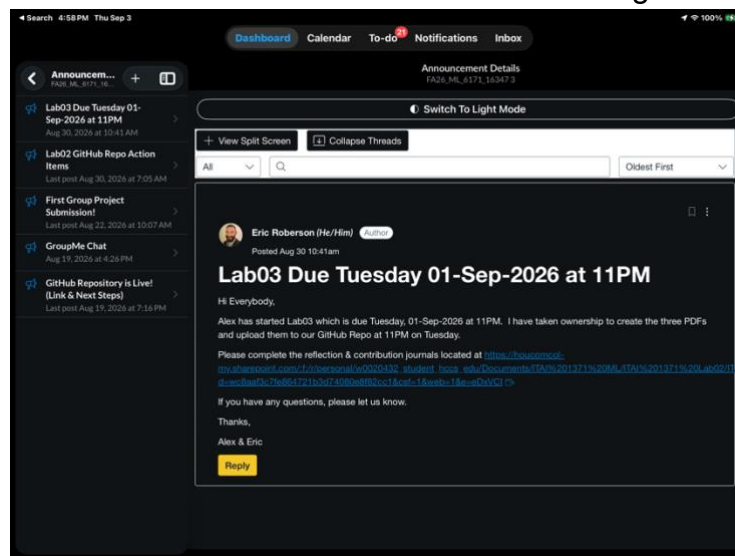

Members of the group include the following students:

- Carmen Petronila Esono Afang
- Yuanyuan Kou
- Irene “Alex” Ramos
- Eric Roberson
- Xiomara Torres

Please refer to the ReadMe.MD file at <https://github.com/ericjroberson-HOU/ITAI-1371-ML-Labs> for intellectual property used in all labs for the course.

Thank you for the opportunity to prepare this reflective journal report. Individual contributions follow.

- **Eric Roberson** - Performed each of the following tasks for L03:
 1. Created folders on OneDrive for all upcoming Labs for the remaining of the semester.
 2. Sent an announcement to the team regarding Tuesday 01-Sep-2026 due date for L03. NOTE: Due date later changed to Thursday 03-Sep.

3. Downloaded the file .IPYNB file for Lab03 “Gradients” and parsed it myself for my own learning.
4. Updated this contribution journal with my deliverables and also the reflection journal templates.
5. Realized that Prof. Rao will potentially need to be a collaborator on our GitHub repo to view our .PDF files, so reached out to him with an inquiry for his GitHub account.
6. Took responsibility for converting the files on OneDrive and uploading the .PDF files to GitHub before 11PM on 03-Sep-2026. Noticed that one student uploaded separate PDFs of their own.
7. NOTE: Was not able to combine the PDFs into our templates, therefore submitted them separately

- **Carmen Petronila Esono Afang**

- 1. Reviewed the Lab03 “Gradients” notebook and familiarized myself with the objectives and instructions.**
- 2. Ran and reviewed the provided code to better understand how gradients are calculated and used in machine learning models.**
- 3. Checked the outputs and results from the lab exercises and discussed any issues with the team**
- 4. Reviewed the work completed by the group members and helped identify missing information or formatting issues before submission.**
- 5. Contributed to the reflection journal by summarizing what I learned from the lab and how gradients are important for training machine learning models.**

- **Yuanyuan Kou**

Please see separate PDF files which were not combined into our Contribution or Reflection journal templates.

- **Irene “Alex” Ramos**

1. Completed assignment in Google Colab
2. Created a reflective journal
3. Edited the contribution journal
4. Messaged group in GroupMe about project updates and needed contributions
5. Sent documents to shared Onedrive

- Xiomara Torres
 - Contributed to reflective journals.
 - Communicated with team on GroupMe

This concludes our contribution journal for ITAI 1371 ML Lab 03, which was uploaded to [GitHub](#) on Thursday, 03-Sep-2026.
